

STORAGE BUILDING SOLD.

JOHN F. LAFRANIERE SELLS BIG BUSINESS PROPERTY.

Members of the Boro Busses Concern buy the building on the corner of Mechanic Street and Globe Court for \$37,650.

The Boro Auto Storage, incorporated, a new company, has bought John F. Lafraniere's big building on the northeast corner of Mechanic street. The price was \$37,650. This deal has been pending since more than a month ago, when the company got an option on the property, and the sale was effected last Friday afternoon.

The company consists of the members of the Boro Busses, a concern which runs jitney busses between Mecca Inn at Red Bank and Seabright. The members of the company are William L. Russell, John J. Quinn, Theodore D. Parsons and Albert Burdge. The bus concern operates seven cars and these will be stored in the building which Mr. Lafraniere sold. Parking and storage space inside and outside of the building will be rented to automobilists.

The property has frontages of 76 feet on Mechanic street and 170 feet on Globe court. The land is irregular in shape and the eastern end of the property is much deeper than the western end. In addition to the big building, which occupies about three-fourths of the land, there are six sheds which will be used to rent space for automobiles. The open land will also be used for this purpose. There will be space for at least 150 cars on the property and it is believed that the new owners, by making this use of the place, will go a long way towards solving the congested traffic problem which has caused so much inconvenience and trouble at Red Bank especially on Saturday nights.

The main building is 76 feet wide and 136 feet deep. It was built a number of years ago by the late J. Holmes Hendrickson and it is one of the best constructed buildings of its kind in the town. Mr. Hendrickson used the building in his jitney business. Two other bays in which in later years rented the building were the late Solomon Ketcham and his son, Lemuel Ketcham. The last occupant of the building was Samuel J. Picot, who used it as a garage. About a year or so ago Mr. Lafraniere spent \$10,000 in repairing and improving the building.

The Boro Busses embarked in the jitney business fifteen months ago, when the trolley company quit running cars between Red Bank and Rumson. The business has grown and twenty men are now employed. The company's system is now generally regarded as the best operated jitney bus system in the state. The members of the company regard their new acquisition as admirably adapted for automobile parking purposes on account of its location only a block from the main business district of the town. They expect to put the building into use in a few days. Not many changes will be necessary to make it suitable for parking and storing automobiles.

Exceedingly cash drawers and the only kind of booty the intruder wanted.

Mrs. Crawford returned home while the thief was in an upstairs room in her house. The robber climbed through a window on the rear porch roof and jumped to the ground. He got away. Nothing was taken at Mr. Crawford's. There was \$174 in cash in one of the rooms, but the thief did not find it.

Felix Tumidiski of Colt's Neck had his neighbor, Tony Rinkowski, arrested last week. Mr. Tumidiski says that Mr. Rinkowski was chasing his (Tumidiski's) horse with an axe and that when he told Mr. Rinkowski to leave the horse alone Mr. Rinkowski refused to do so. Mr. Tumidiski said that the horse was trespassing on his land. Mr. Tumidiski says he told Mr. Rinkowski that the land in question was not owned by Mr. Rinkowski but by the Tintin water company and that the company permitted him to pasture his horse there because Mr. Tumidiski looked after the company's property. Mr. Tumidiski says he advised Mr. Rinkowski to have his farm surveyed.

Mr. Tumidiski said that after he made this remark Mr. Rinkowski rushed at him with an axe but was unable to save the striking him. Mr. Tumidiski's two sons, Walter and Joseph Tumidiski, Mr. Tumidiski says his neighbor struck one blow with the axe that hit the horse but it did not injure the animal much. After he was arrested Mr. Rinkowski was held before a justice of the peace at Freehold and he was held in \$500 bail for the action of the grand jury. He got a bondsman and he was released.

GARAGE DESTROYED BY FIRE.

Electric Wire Thought to Have Caused Broad Street Blaze.

The garage at the rear of Mrs. C. K. Thomas's house on Broad street was destroyed by fire which was discovered about 11:45 Saturday night. A short circuit in an electric wire is believed to have caused the blaze. The fire had gained considerable headway when discovered by Mrs. Thomas and although the firemen were quick in responding they were unable to save the building. A Peerless sedan in the garage was gotten out by the firemen undamaged save for the paint being scorched. The garage contained a fully equipped laundry and chauffeur's quarters.

Charles Brister of Headden's Corner picked up a broken wire he saw on the rear lawn near the garage and was badly shocked. Firemen shut the electric current off to prevent anyone else being injured.

WANT BRIDGES REMOVED.

Petitions Being Circulated to Get Rid of Two Unused Structures.

Louis and George Frick of Red Bank are circulating a petition for the war department to have two bridges removed which stretch across the river at Red Bank. One of the old Southern railroad bridges, part of which collapsed during a storm six weeks ago. The portion of the bridge which gave way rests on the river, making it difficult for boats to get past the bridge. The other bridge mentioned in the petition is the trolley bridge which has been unused since the Red Bank and Keyport trolley line went out of business.

The Rotary club of Red Bank has appointed a committee to ask the Central railroad company to remove the railroad bridge.

NO PROFIT BUT LOTS OF FUN.

American Legion Block Dance on Broad Street Last Wednesday.

The American Legion did not make any money at the block dance held on Broad street last Wednesday night, but it did provide a fine time for a big lot of young folks who like to dance. The sidewalks were crowded with people and the street between Monmouth street and White street was well filled with couples dancing to music provided by a Long Branch brass band. The musicians were seated on two trucks. There was much confetti throwing and other kinds of merrymaking, but there was no rowdiness or trouble of any kind.

At one stage of the festivities Henry F. Hylin, commander of the American Legion post, called upon Mayor Archibald L. Miller for a speech. The mayor responded by saying that it was not the time or place for long-winded remarks, because those present could have a lot better time enjoying the block dance than listening to lengthy speeches. He said he wanted to endorse the object of the block dance, which was to provide hospital treatment and other attention for disabled veterans. The mayor declared that it was those veterans who had won the war. He said England and France were virtually hick when the Americans got on the other side but that the fighting of the Americans turned the scales the other way. The mayor got a lot of applause. The legion took in \$168, which just about cleared expenses.

BELEFORD'S NEW POSTMASTER.

Elwood Runyon Appointed to Take the Place of Daniel Bennett.

Elwood Runyon has been appointed acting postmaster of Belford and he will begin his duties as soon as certain red tape formalities are complied with, which will probably be this week. His appointment came as a surprise to most Belford folks, as Daniel Bennett, the present postmaster, did not resign and no notice of an examination for the position was posted. The postoffice will be moved from Mr. Bennett's store to Mr. Runyon's store. Mr. Bennett has been postmaster of Belford eight years and during that time the business of the office has grown from \$2,800 to \$25,000 a year. Nearly all of the increase is due to a greater volume of money order business. The postmaster's compensation is about \$

Inquiry among Single-Six owners will reveal to you that many of them expect to drive their cars for five years and more. Thus they are avoiding the loss always involved in frequent changes.

This is one of the reasons why the conviction is growing that ownership of a Packard is downright economy. This conviction is fortified by the surprisingly low cost of operation and maintenance.

It is probably a reasonable assertion that nowhere can you purchase so much motoring satisfaction at so low a cost.

Any Packard salesman will gladly amplify this statement and prove to your satisfaction the greater investment economy of the Single-Six.

WEDNESDAY, AUGUST 8, 1923.

TOWN TALK.

Last Wednesday night was the first time Red Bank had a block dance since about a year ago, when one was held in connection with the first department anniversary. There is in these affairs something different from the average social or festive gathering. It is less like a getting together of any special clique or organization and more like a big, happy community party.

The charm of these affairs lies in their democracy and in the spirit of community neighborliness which is fostered. In other ways, too, these block dances are a good thing for the town. They help to advertise the town. Last Wednesday night persons from distant places were at Red Bank to enjoy the festivities. Some of these visitors had never been here before and Red Bank was only a name to them until they came to the dance.

Block dances provide healthy, clean recreation and they are far less likely to be attended by objectionable persons than indoor functions where public attention is not focused on the dancers. Many young folks have a better time at these affairs than by spending larger sums of money for other kinds of recreation. Once a year seems not enough for an amusement which is so clean and popular and beneficial to the town.

The American Legion did not make a large profit from the dance last Wednesday night, but it is going to hold another dance in September and this will no doubt bring in a larger sum of money. The object is to raise money for disabled world war veterans. The cause is a good one and the manner in which the legion is attempting to raise money for it will increase the respect of the people for that organization. It is attempting to give the people something for their money, not trying to gouge them out of their money by tag day hold-ups or by any of the other various catch-penny devices which are all too frequently employed in these days to extract coin from people's pockets without giving anything in return.

It is with gratification that The Register notes the increased use when farmers are making of the advertising columns of this paper, particularly of the want columns, to sell their crops. There has been more advertising of this kind of late, not only in The Register but in most country newspapers, than has been the case in the past. Letters which The Register has received from satisfied farmer advertisers and talks which farmers have had with Register reporters show that the money spent for printers' ink has been well invested.

Some of the farmers, by advertising in this way, sold their crops to some dealers; others disposed of their produce direct to individuals. In either case, according to what farmers tell Register folks, the price paid was better than is obtained by shipping crops to commission agents. Not only was this true but it was also true that the money spent for advertising was less than a bare fraction of the amount which the farmers have to pay when they use commission agents instead of using Luke Longhead to make sales.

According to men who have made a study of the subject the chief trouble with farming today is not the quality nor the quantity of the crop produced but the distribution of the crops. In spite of new plows and bigger and bigger tractors the farmers today are getting more stuff and better stuff out of the soil than their forefathers did. Yet their profits are smaller than ever before. Strange as it may seem, the small price which the farmers receive for their produce is accompanied by the highest prices which the public has ever paid for the things which come from the farm.

Something is wrong and the experts say it is distribution. The question is too deep and too complicated for the average person to find a ready answer, but it is possible for anyone to realize that printers' ink is one remedy for the trouble. Farmers have used advertising less than any other class of business men. The fact that advertising does pay farmers is proved by the experience of farmers who have advertised. In some cases, might be cited showing that from single little 25-cent want advertisements, hundreds of dollars' worth of crops have been disposed of.

Somewhere between the low price received by farmers, after the commission agents, the railroads and various other factors get through with them, and the high price paid by the consumers of farm produce, is the fair price which farmers should receive. On large farms where commission crops are produced it is impossible for farmers to sell their produce direct to consumers, but there are many small farms where at least part of the produce could be sold in this way without commission agents and railroads having "their finger in the pie."

Farmers should advertise the same as other business men. That they are beginning to do the advertising of this is gratifying to The Register, not only because of the business involved, but also because The Register heartily believes that in printing this kind of advertising it is doing a service for the farmer and the consumer. More business on the basis of direct from the farm to the consumer would help solve part of the distribution problem. It would not put the farmer entirely out of the money of chance and guess, but it would enable him to at least have something to say about the price he is to receive. As for the public, it would get better goods at a lower price by getting closer to the farmer.

Some of the supporters of Sheriff

Branch gambling cases, after Walter Reade had not only called these places to the attention of the sheriff's office, but had given the names and locations of the places. These apologists for conditions in the conduct of the sheriff's office under Sheriff Gray and Deputy Sheriff Pach are saying that it isn't the sheriff's duty to close these gambling places, even if they are brought to his attention.

That may be the way of looking at these things from a political standpoint, but it isn't the view which many other people take of the situation. Here for instance, is an editorial in the Newark Sunday Call, which gives that newspaper's view of the situation. That paper can have no possible political interest to serve, but, like The Register, is intent only on doing its duty to the public and serving the people faithfully and to the best of its ability. Here is what that paper says of this refusal or neglect of the sheriff's office to act in these gambling cases after they had been repeatedly called to the attention of the sheriff's office:

LEADING THE BABY ACT. "Because of the motive behind it," the sheriff of Monmouth county says he will take no notice of a letter sent him by an Asbury Park theater owner directing his attention to four or five places in Long Branch and to which, the writer declares, are public gambling houses. Furthermore, says the sheriff, he raided one of these places last year, but as the grand jury failed to find any indictments he concluded that he was "up against a stone wall" and that it was useless to renew the warfare this year. It is the sheriff's expressed opinion that the matter is one to be dealt with by local officials.

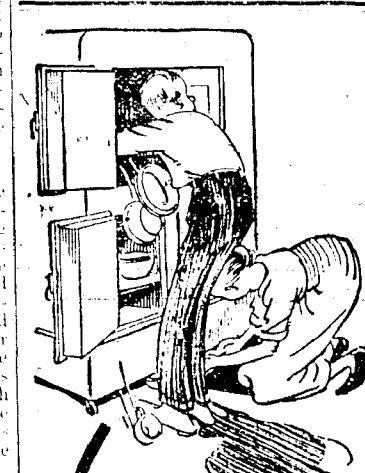

"Now, no matter what may be the motive that prompted the letter," [sent to the sheriff by Walter Reade] it makes certain definite charges. It names the places and identifies them so closely that a blind man could find them. One, it declares, is run by the brother-in-law of a state senator. If the theatrical man's charges are true, these places are being run in open violation of the law and it is the duty of the sheriff as chief law enforcement officer of the county to close them up and keep them closed.

"Neither is the fact that the grand jury last year failed to indict anyone following a raid by the sheriff any excuse for failure to raid them this year. What the grand jury may do is no concern of the sheriff's. Let him do his duty and keep his record and conscience clear. Instead of becoming discouraged because his one raid was fruitless in producing indictments he should keep on raiding until he had piled up such a mountain of evidence that no grand jury could possibly ignore it."

"To lay the blame for the continued existence of these places on the local authorities is childish. Everybody knows how strong are the influences that in places like Long Branch can be brought to bear with paralyzing effect on the local authorities. The fact that local authorities evade their duties is no excuse for the sheriff's neglect to perform his. Doubtless Prosecutor Sexton could have found equally plausible reasons for keeping his hands off, but he seems to have taken the 'tips' at their face value and his officers found the information correct. The places named have now been raided, but no credit is due the sheriff."

"When the late J. Franklin Fort, as a justice of the supreme court presided in the courts of Monmouth county, he found a way to put the Long Branch gamblers out of business. It is suggested to Sheriff Gray that he take a leaf from Justice Fort's book."

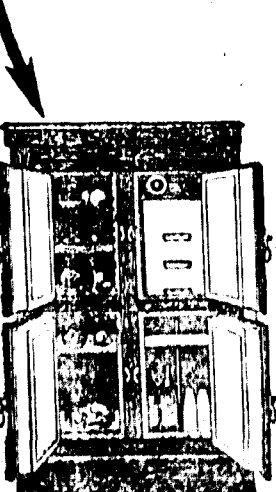

(Town Talk continued on page 14.)

The two places where round stock potatoes seem to be turning out best are the Ely estate farm and Henry Cross's farm. The Ely farm is yielding seventy barrels to the acre and the Cross farm is doing almost as well. On the Ely place horse manure was used instead of fertilizer. There is a general belief among the farmers that manure makes grubby potatoes but this is not the case on the Ely place. The potatoes are so good that Red Bank grocers are paying fifty cents a barrel for them above the regular price. Mr. Cross is selling his round stock at Red Bank and New York. The season for Giant potatoes will be in full swing in about two weeks.

Carefully balanced as an airplane propeller

The propeller, which applies the power produced by the motor, has to be as finely balanced as human skill can make it. And the gasoline which produces the power should be just as carefully balanced.

"Standard", the Balanced Gasoline, gives to your motor the smoothest, steadiest, and most generous flow of power that skilled refining has yet produced. Instant starting; quick, snappy pick-ups; power that lifts you over the hills; long economical mileage; and always that even flow of abundant power. That's what "Standard"—The Balanced Gasoline—gives you.

You can't appreciate the wonderful performance of a perfectly balanced car until you've driven one. And you can't know what balance in a gasoline means until you've used "Standard". At any pump bearing the red S. O. sign of quality.

Women Tell Each Other How They
Have Been Helped by Lydia E.
Pinkham's Vegetable Compound

Perryburg, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my sides all the time. I can't remember just how long I suffered, but it was for some time. One day I was talking with a lady I met on a car, and I told her how I was feeling and she said she had been just like I was with pains and nervous troubles, and she took the Vegetable Compound, and it cured her. So then I went and got some, and I certainly recommend it for it is good. Whenever I see any woman who is sick I try to get her to take Lydia E. Pinkham's Vegetable Compound."

—Mrs. ANA FRICK, Route 3, Perryburg, Ohio.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a trial?

For the heavy wash
and for "wash-bowl"
laundrying

Washes out the stains along with the dirt

CLOTHES can now keep their just-like-new whiteness until they are worn out. They need no longer turn yellow after a few washings.

Ordinary methods—bar soaps, soap flakes, soap powders—leave some deposit of fat, resin, or waterglass on the clothes. It won't all rinse out, and this is what turns clothes yellow.

With DUZ the clothes can't turn yellow. DUZ is a pure castile soap preparation containing no resin or waterglass. DUZ goes into the clothes; sends out the dirt; then rinses out completely and quickly. Nothing is left on the clothes to yellow them.

DUZ whitens the clothes
just as the sun does

While DUZ is washing out the dirt, it also takes out the yellowness accumulated from past washings—and removes all stains, except rust.

Yet DUZ cannot injure either the fabric or the skin.

The action of DUZ, while washing the clothes, is the same action you get when the wash is put out in the sun to dry. Whether the clothes are being washed in DUZ or dried in the sun, they are given a mild white bleach. The method is both natural and harmless.

DUZ also sterilizes—giving the clothes that sweet, fresh-air smell which means real through-and-through cleanness.

For every kind of laundrying

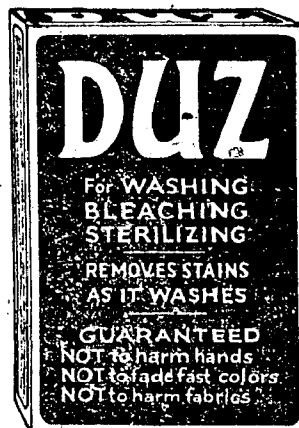

For the heavy family wash and for dainty laundrying as well, use DUZ. It can't injure the finest fabrics. Heavy rubbing is unnecessary. Less rinsing is sufficient. All stains except rust, all yellowness, all the old, dingy look, disappear never to return as long as you wash with DUZ.

Your grocer has DUZ. Get a 10c package today and prove its value for yourself.

THE DUZ COMPANY, Inc., New York

The Pricilla Proving Plant has approved DUZ as an effective and harmless soap preparation for all types of laundrying.

Coffee stains

Every week's wash contains one or more napkins or tablecloths stained with coffee. Old-fashioned methods demanded special treatment; often a brownish ring remained. When DUZ is used, you forget coffee stains—they come out with the ordinary dirt. DUZ removes all stains, except rust, without the slightest injury to the fabric or the hands.

Work!

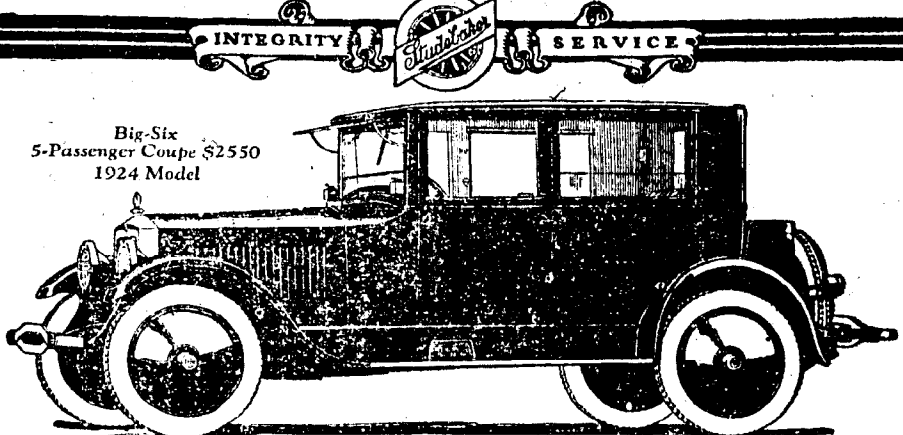

NO matter how hot the day, how heavy the bearing pressure or how tight the clearance between moving parts, put the right consistency of Polarine into your motor and it absolutely does the work—holds its body and maintains a firm, elastic oil cushion that keeps the metal surfaces safely apart. Three consistencies of Polarine, all of the same outstanding quality, take care of differences in motor design. Pick the right one from the Polarine chart and you can depend on its high-class work.

Polarine flows quickly—low temperatures or high—spreads evenly over wearing surfaces—out-wears inferior oils, yet is reasonably priced by the gallon and costs much less by the mile. Years of experience the world over have taught us to combine easy flow, positive work, long wear and low mileage cost and give you Polarine for absolute lubricating satisfaction.

1924 Models Are the Finest Big-Sixes Studebaker Ever Built

The enthusiasm with which the new 1924 model Studebaker cars have been received locally is an indication of the reception they have enjoyed throughout the country.

No wonder. They are emphatically the most compelling values Studebaker ever offered and the public knows that Studebaker has been a consistent leader, year after year, in the amount of intrinsic value per dollar invested.

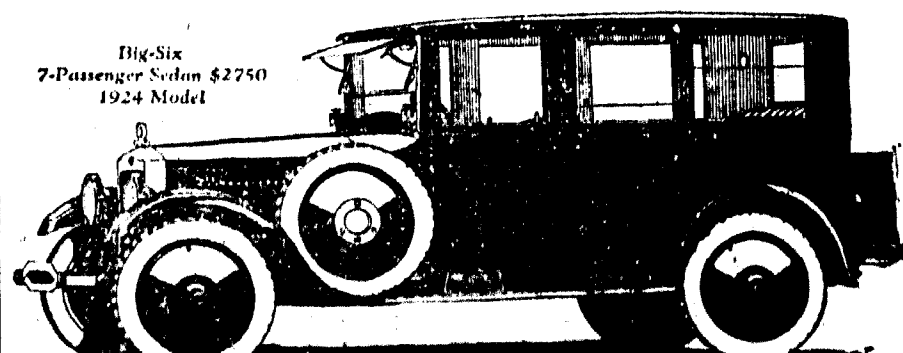

The Big-Six Sedan and the Coupe are the finest cars that have ever borne the name Studebaker. They provide all the performance, all the comfort, and all the dependability that any car will give—at a price that smaller producers cannot approach.

Everything for which one can wish in motoring convenience, comfort and utility has been provided—even to the extra disc wheel with tire, tube and tire cover (two on Sedan); handsome nickel-plated bumpers, front and rear; large, roomy trunk; automatic gasoline signal, and many other features. There is nothing more to buy.

The prices of the Sedan and Coupe are moderate because of Studebaker's large production, vast physical and financial resources, the manufacture of all vital parts in Studebaker plants, and the accumulation of experience and prestige gained through 71 years of building quality vehicles.

A Dry Cellar—Yet a Cool One

A warm cellar is a poor storehouse. That's why vegetables and other foodstuffs cannot usually be kept in the basements of homes heated by the old style pipe furnaces, or the more costly systems. The

Home Ventilator Furnace

The Original PATENTED Pipeless Model Manufactured only by the HOMER FURNACE CO., Homer, Mich. will radiate enough heat to keep the cellar free from dampness, but will not detract from its natural coolness. Vegetables can be stored with perfect safety.

Heat is not wasted with the "Home Ventilator." The scientific principle of design and operation sends all heat units through the combination hot- and cold-air register, and from there it is evenly distributed throughout the house.

Clean, simple and safe. Doesn't waste space and doesn't necessitate a big installation cost. We can equip your residence with a "Home Ventilator" in a few hours, for a little more than you would pay for a good base burner. Ask us for more information.

A PICNIC FOR CRIPPLES.

ELKS GIVE OUTING FOR CHILDREN MONDAY.

Picnic Was Held at Belvedere Beach at Keanburg—Everything Free to Children and About Forty Enjoy a Delightful Day.

On Monday the Red Bank lodge of Elks took the crippled children and grown-ups who live within its district to Belvedere Beach at Keanburg to enjoy a day's outing as guests of the lodge. In addition to these afflicted children and grown-ups a number of relatives and friends of the guests of the day were also invited, in order that the usual care and attention given to the guests might not be lacking.

Automobiles contributed by members of the Elks' lodge and friends of the lodge took the children and grown-ups to Belvedere Beach and brought them home at night. The automobiles started from the Elks' home about half-past ten o'clock in the morning and returned with them about six o'clock at night. Automobiles were furnished by John P. Mulvihill, Joseph Salz, Augustus Minton, William Dodd, Walter B. Connor, Abram Simon, Lester Brown, William Coyne, John L. Montgomery, Henry P. Hylin, William Pease, Elmer C. Van Hook, Mrs. Myron Brown, Clifford E. Elliott, William Woods, William Derry, Elmer E. Morris, Augustus Wolfe, Thomas McKnight, Mrs. Samuel Coggins, Mrs. Reta C. Elliott and Mrs. John H. Cook. Most of those who offered automobiles went to the party and assisted in the work of the day. Charles Hascall and Allan Snyder, two boy scouts from Fair Haven, acted as guides and assistants. Miss Helen Hirsch of Red Bank, a trained nurse, also accompanied the party.

Belvedere Beach is one of the most prominent amusement centers of Keanburg and the whole place was thrown open to the use of the Elks and their guests. Many of the attractions were free, and tickets were provided by the Elks for the various concessions on the grounds. Everything on the grounds was therefore free to the entire party. Lunch was served in a large grove on the Belvedere Beach grounds at noon. The lunches were served in individual boxes, each box containing three sandwiches of different kinds, potato salad, a pear and an orange. In addition to this box lunch, each person was also served with milk, soda water, ice cream and hot chocolate cake. After the lunch the Elks and their guests again enjoyed all the delights and attractions of the place until four o'clock, when milk, ice cream and cake were again served.

A large committee of women attended the party in order to give special attention to the wants of the children and others. This women's committee was made up of the following: Mrs. Myron B. Brown, Mrs. W. B. Connor, Mrs. Reta C. Elliott, Mrs. Henry P. Hylin, Mrs. Samuel Coggins, Mrs. Thomas McKnight, Mrs. Myron Brown, Mrs. William Woods, Mrs. W. Derry, Mrs. Clifford E. Elliott, Mrs. John L. Montgomery, Mrs. Elmer C. Van Hook, Mrs. Elmer E. Morris, Mrs. Augustus Wolfe, Mrs. Thomas McKnight, Mrs. Samuel Coggins, Mrs. Reta C. Elliott and Mrs. John H. Cook.

Each of these women contributed a home made cake to the party. A dozen or more attractions were on the grounds and they were all well patronized. The aerial swing was perhaps the most popular. These swings were in the shape of aeroplanes which swung around in a big circle like a merry-go-round. Next to the aerial swing the most popular attraction was "Kill the Kats," where prizes were given for knocking muslin cats off a shelf with baseballs. This was especially liked by the little children. Many other amusements were offered, including the use of a big swimming pool, in addition to bathing in the beach.

In the afternoon an entertainment was given on the stage in the big dance hall on the grounds. This also was free to everyone. The entertainment was mostly of a humorous character, and included singing, tumbling acts, funny dialogues, dancing, etc.

Chief of Police Harry B. Clayton of Red Bank was present during the afternoon. He was not there in his official capacity, but purely as an on-looker and to help in any way possible to make the day a happy one.

The guests of the day included the following: Red Bank. Miss Mary Reiss, Miss Gertrude Numan, Miss Pearl Lundstrom, Miss Edna Meyer, Miss Leonard Stalla, Mrs. Myron Brown, James Murray, Keanburg. Vincent Bragg, Peter Behr, Alex Levy, Bonifacio, Vera Solomon, Edward Solomon, Valentine Cunningham, Helen Katz, Joseph Zal, John Kinnick, Benjamin Beach, George Lawrence, Keanburg. Mrs. William Geller, Ida Cohen, Ruth Walling, Elmer Voorhees, John Smith, Alfred Alice Morris, Keanburg. Harold Mahb, Keanburg. Harry Smith, Keanburg. Everett Anderson, Glenn Evans, Keanburg. William Neiderman, Keanburg. William E. Johnson, Port Monmouth. Jennie Kuhn, Keanburg. Jennie Kuhn, Keanburg. New Monmouth. Stanley Vasek, Keanburg. Anthony Hordick.

The general committee of the Elks who had charge of the day's outing was composed of John P. Mulvihill, Fred C. Van Hook, Myron B. Brown, Joseph Salz, Clinton E. Elliott, Walter B. Connor, William W. Wood, Elmer E. Morris, Charles Redfern, William Derry, Gus Wolfe and Thomas H. McKnight.

The Long Branch lodge of Elks took the crippled children of its district to Highlands and in the party were the children of Wright's memorial home at Oceanport. Asbury Park lodge took the children to Clark's Landing and Freehold took the crippled children of that district to Hotel on the Delaware, by way of Trenton.

FRIDAY DAY OF MOURNING

BUSINESS TO CEASE AS TRIBUTE TO PRESIDENT.

Mayor Miller Issues Proclamation Asking People to Fittingly Observe the Day—Public Services at Borough Hall.

Mayor Archibald L. Miller of Red Bank has issued a proclamation asking the people of the town to set aside Friday as a day of mourning on account of the death of President Harding. He has arranged for a short service at the town hall at which clergymen will make prayers and speak and at which representatives of various civic organizations will make remarks. The proclamation is as follows:

It is fitting and proper that we, the people of Red Bank with due regard to the proclamation of President Coolidge calling upon the people of the nation to set aside Friday, August tenth, as a day of mourning and prayer throughout the United States, to gather together in a public place and pay tribute to the memory of our much lamented deceased President, Warren G. Harding.

Therefore I, Archibald L. Miller, Mayor of Red Bank, do call upon the citizens of this borough to gather at the town hall on Friday, August tenth, at three o'clock in the afternoon, where a memorial service will be held.

Further, it is my request that in case all business houses are not closed by executive decree on that day, that the business houses of Red Bank shall close between the hours of three and four P. M. The time referred to in this proclamation is daylight saving time.

At a meeting this morning in Henry P. Hylin's insurance and real estate office the Red Bank business men's association voted for the members of the association to close their stores all day Friday. They also voted to request all Red Bank business men to do the same and to display flags at half-mast.

The Signum Dei clothing factory and most of the other factories in Red Bank will be closed all day. All executive departments in the town hall will be closed all day Friday. The entrance to the building is draped in black and the flag is at half-mast.

All national and state banks have been ordered to close on Friday. A memorial service will be held Friday morning at ten o'clock at the Little Silver schoolhouse. Mayor J. Elwood Harvey has issued the following proclamation:

Whereas, it has pleased Almighty God in His wise providence to remove by sudden death our beloved President, Warren G. Harding, and whereas President Coolidge has issued a proclamation asking the people of this great country to gather together in public places to pay our respects to the memory of our dead President, therefore I, Elwood Harvey, mayor of the borough of Little Silver, do earnestly request the people of this borough to gather at the Little Silver schoolhouse at ten o'clock A. M., daylight saving time, when a memorial service will be conducted.

Given under my hand and official seal this seventh day of August.

Attest: Emerson Quackenbush, Clerk.

WOMEN AFTER THE JOBS.

THEY WANT REPRESENTATION ON ALL BOARDS.

Red Bank Democratic Women Have Picked Out a Woman for Each Election Board and They Want Women on the County Committee. The Red Bank Democratic executive and advisory boards held a meeting last week and the women on these boards presented their claim to representation on the county committee and on the town election boards. They also asked for representation of two members on each Red Bank borough executive committee.

Under the law each political party has in each election district two members of the county executive committee, two members of the election board, and five members of the local executive committee. The Democratic women's organization of Red Bank has set up a claim of one woman member on the election board in each district and one woman member of the county committee in each district. It is expected that they will ask for two members of the local executive committee in each election district.

The matter was taken up at the meeting of the executive and advisory boards of the Red Bank Democratic organization last week, but no decision was reached. The women recommended for the election boards in the ten Red Bank districts are as follows:

First—Mrs. Gertrude E. Scott. Second—Mrs. Mary Wolcott. Third—Miss Elizabeth T. Costello. Fourth—Mrs. Elizabeth Kirby. Fifth—Mrs. Jeanie G. Walling. Sixth—Mrs. Joseph E. White. Seventh—Mrs. Katherine Mulligan. Eighth—Miss selection. Ninth—Miss selection. Tenth—Mrs. J. D. Bodine.

The women whom the women's Democratic organization recommended for members of the Democratic county committee from each district are:

First—Mrs. Josephine Connors. Second—Mrs. H. E. Armstrong. Third—Miss Mary C. O'Brien. Fourth—Mrs. W. H. Borden. Fifth—Mrs. Jessie G. Miller. Sixth—Mrs. John G. Walling. Seventh—Mrs. Ophelia Diben. Eighth—Mrs. Anna Hackett. Ninth—Mrs. Catherine McCarty. Tenth—Mrs. Mary J. Deirich.

The action of the women's Democratic county committee in endorsing a candidate for senator was severely criticized at the meeting as being against public policy. It was also criticized as being against the general principles of the Democratic party, which believes in open field for all candidates, without undertaking to control the selection of candidates for office.

NEW CANDIDATE FOR SHERIFF.
The Mayor of Keyport Gets Into the Race on the Republican Side. Mayor Thomas L. Smith of Keyport has announced his candidacy for the Republican nomination for sheriff. He is a graduate of Wake Forest law school of North Carolina and he has been engaged in the real estate business at Keyport a number of years. Mr. Smith demonstrated his strength as a vote getter last fall, when at a time of Democratic victories approaching a landslide he was elected mayor of Keyport by a large majority. His course as mayor of Keyport is said to have been such as to strengthen him there.

Card Party Postponed.
On account of the death of President Harding the card party which was to have been held this afternoon at the Monmouth hotel at Asbury Park by the Monmouth county women's Democratic club has been postponed until next Wednesday.

Synagogue Memorial Service.
A memorial service in observance of the death of President Harding will be held Friday afternoon at the Hebrew synagogue on Riverside avenue. A New York clergyman will conduct the service. The public has been invited to attend.

KLAN GIVES \$30 TO CHURCH.

Gift Came in Roundabout Way to Tinton Falls Ladies' Aid Society.

Last week an envelope was handed to a member of the ladies' aid society of the Tinton Falls Methodist church by a man who said he was not a member of the Ku Klux Klan but who had been requested by a Klan member to ask the ladies' aid society to accept the contents of the envelope as a gift from the Klan. It was intended, the man said, as a gift to be added to the church's harvest home fund. The envelope was opened last week at a meeting of the ladies' aid society and it was found to contain \$30. There was no letter in the envelope. The society has accepted a vote of thanks to the Klan.

CROSS BURNED AT DANCE.

FIERY EMBLEM INTERRUPTED FESTIVITIES ON STREET.

Dancers Ceased Their Gyration to Rush Across to Tracks and Put Out Burning Cross which Threatened to Cause a Fire.

Monday night, while hundreds of persons were enjoying a block dance on Bridge avenue, a burning cross suddenly appeared near the railroad tracks about a block distant. Lumber and other material failed to catch fire as the cross was near where the cross was burning and the merry-making ceased while nearly everyone hastened to the fiery emblem. The cross was torn down and the fire was quickly put out. The dancing was then resumed.

The block dance was held in connection with the annual Italian celebration of Saint Maria del Ponte and much indignation was expressed by those at the festivities. They said it was a deliberate attempt to terrorize and to break up the dance. No charge was made for dancing and the music was provided by a brass band. The celebration was continued last night and there was much music and fireworks. The last night of the celebration and the biggest night of all is scheduled for tonight.

BUSSES AND SOFT COAL.

THEY FIGURED PROMINENTLY AT COUNCIL MEETING.

Another Meeting With Regard to Busses to be Held Tonight—Monmouth Mutual Supply Company to be Prosecuted, the Mayor Declares. The question of bus service over the Red Bank and Keyport trolley route was discussed at length at the Red Bank council meeting Monday night. There was a long talk as to whether the license fee for a bus should be reduced from \$50 to \$15. One suggestion was made that no license fee be charged at all for the balance of the year. It was reported that Keyport had pulled out of the association of municipalities formed to agree on a bus program and had decided to settle the question without regard to the action of other places. Councilman William H. R. White was authorized to represent the Red Bank at a meeting of officials of the various interested municipalities at Red Bank tonight. It is expected that the question of license fees and other questions will then be settled. Mayor Miller and all the councilmen present said they would be on hand to advise the White.

Another thing that took up a lot of time was the alleged violation by various concerns of the ordinance prohibiting the use of soft coal. Mayor Miller said he had instructed the chief of police to serve notice on the Monmouth mutual supply company to discontinue the use of soft coal within 48 hours or face prosecution under the ordinance. Councilman White protested against this action, stating that it was not fair to single out one company for punishment. He said all concerns which are breaking the ordinance should be proceeded against at once. The mayor said all offenders would eventually be prosecuted but that the supply company had been picked first because it was the worst offender and because it had machinery for using hard coal, while other concerns did not have such machinery. This explanation did not suit Mr. White but Mr. Miller said he would accept the responsibility unless the council passed a resolution otherwise. The council did not pass such a resolution and it is expected that the chief of police will serve a summons on the supply company today.

Councilman J. Birdsall Pharo was authorized to file out the necessary permits to permit benches which are now stored in the town hall to be placed on the river front, near the steamboat dock, for the convenience of folks who go there. Toward the last part of the meeting Mr. Pharo described with considerable minuteness the delights he experienced at a parade of girl bathing beauties at Bradley Beach Saturday. An invitation was sent to all the Red Bank commissioners to attend this parade and Mr. Pharo was the only one who accepted. He said his colleagues missed sights easy to look at.

Letters from the public utilities commission and from the Central railroad company were accepted and filed. The letters were to the effect that the electric bell at the Beech street crossing would be done away with. It is a great nuisance to people in that locality, as it interferes with their sleep.

Miss Amy Olsen, the clerk, was instructed to advertise for bids for sewers on Wilcox place subject to the approval by the state board of health of the plans which have been made for this improvement.

The commissioners intend to have Reckless place paved with concrete next year and they made plans Monday night to get state aid for this job. The old state highway commission promised such aid, but it is not known whether the new board will do it. Mayor Miller said he had been advised that the cost of putting an asphalt top on the concrete paving which is to be laid on Drummond place would be \$900 to \$1,100. Whether this is done or not depends on the property owners of Drummond place. The commissioners have decided that if it is done the property owners will have to pay for it.

The clerk was instructed to advertise for bids for concrete paving on Wilcox place, Chestnut street and Bridge avenue. The clerk was also instructed to advertise for bids for West street. It is not a sure thing, however, that the West street job will be done. The commissioners said they would do it if Capt. Charles P. Irwin would take up his trolley tracks on West street.

Recorder Poulson reported that 164 persons had been arrested in the month and he turned in a check of \$120 to the town. This money was collected from thirty of the persons arrested. In addition to this the recorder imposed fines of \$1,431 on 125 persons who violated the motor vehicle

TOWN TALK.

(Continued from page 4.)

President Harding, whose death the nation is now mourning, was a man with a wonderfully amiable and kind disposition. His political foes as well as his political friends are in accord on this point and all unite in honoring him, not alone to show their respect for the high position which he held, but also to express a genuine feeling of regret over the loss of such a public servant.

Our new President takes office under unusual conditions and at a time when great political forces fraught with large consequences are stirring the thoughts of the people. He states that he will follow the same policies as his predecessor. No one should take this statement too literally. It should not be taken to mean that he will act precisely in the future as President Harding has done in the past. President Harding himself would not do that if he were alive.

Every vice president who has been elevated to the office of president has announced upon assuming the higher office that he would follow the course of his predecessor. None have been able to do so except in small degree. Conditions are constantly arising which require a change of policies. Probably no stronger example of this was shown than during Theodore Roosevelt's administration. Roosevelt announced that he would follow in the footsteps of President McKinley and he fully intended to do so, but the nation at that time was undergoing a transition which made a change of policies not only desirable but imperative.

To none but small minds is consistency paramount. No one except the small-minded will blame President Coolidge when he strays, as he undoubtedly will, from the pathway marked by President Harding. He is President and he must carve out his own record, not follow like a lamb in a rut made by someone else. The American people are too wise and have too much common sense to condemn our new President for any originality he may show or for any action he may take along new lines.

"To do the right as God gives us the light to see the right" is just as good a course to follow today as it was in Abraham Lincoln's time. Lincoln and all the other great forefathers of our country followed this course. They were at times condemned for such action but time vindicated them.

A MEMBERSHIP CAMPAIGN.

Members and Money Wanted for the Social Service Organization.

On August 15th the Monmouth county social service organization will begin a campaign for new members to support the organization. The county has been divided into ten districts and a captain will be appointed in each district. Five kinds of members have been planned and they range according to the amount paid by each member. An ordinary membership will cost one dollar a year. For two dollars a year one can become a sustaining member. The next highest form of membership is that of contributing member, which will cost anywhere from ten dollars to twenty-five dollars a year. Then comes sustaining members who will pay not less than \$25 a year and not more than \$500 a year. A person is the highest form of membership of all and this will cost \$100 a year and as much more as the person wants to give.

The captains of five of the districts have been already selected. Mrs. William T. McDowell of Cardenal Camp, in Middletown township, opposite Red Bank, is the captain of the Red Bank district. Mrs. Charles A. Niles is captain of the Freehold district. Miss Mabel Winsor of the Ashbury Park district. Mrs. C. H. Tucker of the Ocean Grove district, and Mrs. Theodore H. Bennett of the Spring Lake district. The other captains will be appointed in time for them to select their helpers and begin the work of collecting the money by next Wednesday.

Each captain can select as many assistants as he wishes. Mrs. M. McDowell has selected Mrs. John L. Leonard as her chief helper. The membership campaign will continue for a month and will end September 15th.

FINISHED YEAR WITH BALANCE.

Good News for the Taxpayers of Tatnotown Township.

The Tatnotown township board of education finished its fiscal year last Wednesday night with a balance or surplus of \$2,264.27. When the budget of school expenses was prepared it was thought that all appropriations had been fixed at a minimum amount, but economy and a larger appropriation from the state than had been anticipated left the board with a balance which will probably be reflected next year in lower taxes.

The Parent-Teacher association sent a letter to the school board asking more thorough medical inspection for the pupils and more vigor in the enforcement of the compulsory attendance law.

The Public Transit bus company received a contract to transport children to school at a cost of \$5 a day. Wednesday, September 5th, was fixed as the date for the township schools to re-open.

A Double Christening.

Two Westside avenue babies were christened Sunday morning at St. James's church. They are Henry Klaus, Jr., son of Henry Klaus, and Violet Duerkas, daughter of Charles Duerkas. Mr. Klaus is a brother of Mrs. Duerkas. After the ceremony the members of the two families and a number of relatives and friends enjoyed a dinner party at the home of the babies' grandparents, Mr. and Mrs. Henry Klaus of Kennamberg.

New Shore Resort.

The Morgan mansion, for many years one of the show places of Deal, which was recently taken over by a committee of citizens of that place with an idea of converting it into a community house, is reported to have been turned over to William S. De-Long, proprietor of Delah's road.

The Red Bank Business Men's Association mourns deeply the passing of President Warren Gamaliel Harding and bows in sorrow before the visitation of the Almighty.

It is requested by the Officers of this Association that the places of business of its Members be closed all day Friday, August 10th, 1923, as an act of respect for our dead leader.

NEWS FROM MIDDLETOWN.

**LEONARDO AND BREVENT PARK
FIREMEN CLEAR \$2,000.**

Trolley Company Begins Work of
Tearing Up Car Tracks—Big Time
Planned at Ocean View for Labor
Day—Two Houses Sold.

In spite of the stormy weather last week the annual fair of the Leonardo and Brevent Park fire department was very successful. The profits will be about \$2,000. The gross receipts ran around \$2,500 and the expenses were about \$500. Several articles were disposed of on the co-operative plan. Alex Godeckia won a ton of coal, this being the third straight time that he has received such an award at the firemen's fair. Leslie Roup won a ten-dollar gold piece, Raymond McLaughlin a pearl necklace and Miss Rose Komelski an aluminum rooster. The trolley company has started to tear up its tracks in the township. The company is taking on any able bodied man for this job and the work has given employment to many who were out of jobs.

Arrangements are under way for the annual Labor Day events at Ocean View. Last year more than 3,000 persons watched the various contests. There will be running races, swimming races, high jumping and other events. The committee in charge consists of George Bostock, Harry Palmer, Louis Veigel, Richard Lowendowsky, James H. McPhee, John Schroeder and Charles Schoellner.

B. H. Nowell and Robert Caesar have sold their houses at Ocean View to New York parties for \$2,000 each and Charles Schroeder has sold his house at the same place and for the same price to R. A. Burke of Ocean View.

The three-day fair held by the Port Monmouth fire company last week netted more than \$1,000. Big crowds were on hand each night. The booth at which fancy articles were sold turned in \$328.30. The things disposed of on the co-operative plan comprised a ton of coal won by James Burlew, a minstrel doll won by H. R. Applegate, a ham won by George Luker, a cereal set won by Mrs. Roy Drake, a chocolate set won by Miss Anna Mae Langford, a bed spread won by Frank Yarnall, an electric lamp won by Arthur Johnson, a rag rug won by William Snow, a pillow won by Alfred Moore, scarfs won by Mrs. R. T. Nutt and Miss Anna Pulsch, a syrup jar won by Mrs. Edward Runyon, a nut set won by Horace P. Smith, a yoke won by William Dennis and an Axminster rug won by Miss Nan Helwig.

Rev. and Mrs. A. H. Sutphen of New Monmouth left today for an automobile vacation trip to Lake Hopatcong, Ledgewood and Budd Lake. Next Sunday morning a representative of the anti-saloon league will speak at the New Monmouth church. During the rest of August the Sunday evening services of the church will be in charge of the Christian Endeavor society.

The Navesink fire company will hold its annual fair on Friday and Saturday of this week. The profits will be used to help buy a new fire truck. The Navesink fire company was organized 37 years ago and is the oldest fire company in Middletown township. A Ford touring car will be disposed of on the co-operative plan at the fair.

James Black of Ocean View, who

is a special policeman without pay, directed traffic through that place Sunday. Because of the main road being cut off while concrete pavement is being laid there was a big lot of automobiles going through Ocean View and Mr. Black had his hands full. He receives nothing for his services.

A "back to childhood" dance will be held tomorrow night in the Ocean View community house by the ladies' auxiliary of the property owners' association. A prize will be given to the couple who most resemble babies. Mrs. Christopher Bang, the chairlady of the auxiliary, will be in charge of the affair.

The annual fair of the Belford fire company started Monday in a manner that betokened a successful result. Saturday and Sunday were tag days for the firemen and more than \$500 was collected.

Albert Northcott of Port Monmouth underwent an operation for tonsil trouble at the Long Branch hospital last week. The operation was successful and Mr. Northcott is now at his home.

A home economics club was organized Monday at a meeting at Mrs. Ward Jeffers' at Belford. Miss Bishop, the county home economics demonstrator, was in charge of the meeting.

Mr. and Mrs. Louis Jensen, who are now living with Mrs. Jensen's mother, Mrs. Joseph Luker of Port Monmouth, will move into their new house at Port Monmouth next week.

Glendale Park

MIDDLETOWN TOWNSHIP

Situated almost opposite the new Shrewsbury River Country Club, and having nearly a mile frontage on the State Highway, this development is selling very rapidly.

During the past week we have sold 47 lots at Glendale Park, principally to Red Bank people. This record is due to the fact that the lots are only a short distance from the railroad station, the ground is good, the price extremely reasonable and the terms so easy that even a school boy can buy.

Two years ago we sold lots at Port Monmouth for \$175, and these same lots are now reselling at \$400. Excellent lots can be had at Glendale Park for \$100, on such easy terms of \$10 down and \$2 per month. These same lots will be worth at least double their present value one year from now.

For your convenience we have cars standing outside our office every day during the week, including Sundays, to take you on a free inspection trip of the property. You are under no obligation to buy, and our salesmen will extend you every courtesy if you will favor us with a call.

BIG FEET OR BIG HEARTS?

Whichever is the Case, Eatontown Methodists Cleared \$35.

Last Thursday night at the Eatontown Methodist church there was a sock and stocking social at which the charge was made in cents in three times the size of the sock or stocking worn by each person present. The amount cleared was \$35 and as there were only fifty persons at the social one might deduce that Eatontown folks have exceptionally big feet. However, persons who are acquainted with the facts say this is not the case at all. They say the people at the social are not possessed of big feet but of big hearts and that in their desire to help the church they paid a whole lot more than the rate charged. The social was conducted by the ladies' aid society of the church.
